Education

University of Groningen since 12/23

PhD Philosophy, under Prof. Dr. Jan-Willem Romeijn

LMU München, MCMP 04/23 – 03/24

PhD Philosophy, under Prof. Dr. Stephan Hartmann

- Working to capture core concepts from feminist social epistemology—namely socially situated knowledge and standpoints—in formal, agent-based models of epistemic communities.
- Collaborating on the *NormAN* framework, in a modelling project led by Prof. Dr. Ulrike Hahn.

LMU München, MCMP 10/20 – 03/23

MA Logic and Philosophy of Science

- MA thesis on Bayesian source-reliability models, supervised by Prof. Dr. Stephan Hartmann and Dr. Hein Duijf.

CU Boulder 08/19 – 12/19

Undergraduate Exchange Student, Philosophy and Computer Science

- Fulbright travel grant and PROMOS stipend.

Universität Regensburg 10/16 – 10/20

BA Philosophy, Media informatics

- Thesis on Lewis' Similarity Approach to counterfactuals, supervised by Prof. Dr. Hans Rott and Dr. Tim Kraft.

Academic Experience

Doctoral Researcher since 12/23

SCOOP Program *University of Groningen*

- Studying *the merits and defects of competition in science* (project 7.2) under the header of *reshaping organizational structures* (challenge 7), which tackles the impacts of external shocks on sustainable cooperation at work.
- Project supervisors: Prof. Dr. Jan-Willem Romeijn, Prof. Dr. Naomi Ellemers and Dr. Felipe Romero.

Teaching Assistant 10/23 – 02/24

Chair of Prof. Dr. Stephan Hartmann *LMU München*

- Teaching Bayesian methods for Dr. Ignacio Ojea's course "Central topics in philosophy of science".

Graduate Student Instructor 10/22 – 02/23

Chair of Prof. Dr. Stephan Hartmann *LMU München*

- Teaching my own reading course on the use of models in feminist social epistemology.

Research Assistant 07/21 – 08/22

Project of Dr. Dr. Niki Pfeifer *Universität Regensburg*

- Data analysis and experiment design for studies on human reasoning under uncertainty, with a focus on connexive logics.

Teaching Assistant 05/21 – 07/21

Chair of Prof. Dr. Hans Rott *Universität Regensburg*

- Marking weekly assignments in the introduction to the philosophical logic course taught by Dr. Holger Leuz.

Undergraduate Assistant 05/20 – 08/20

Chair of Prof. Dr. Weyma Lübke *Universität Regensburg*

- Helping the ethics department's transition to digital teaching and assisting with Dr. Martin Weichold's course on libertarian paternalism.

Philosophy Presentations

- "Socially situating *NormAN: Standpoints in a Bayesian ABM*", 01/24, *Groningen-Hanover Workshop* at Leibniz-Universität Hannover.
- "Situated knowledge and standpoints in agent-based simulations", 12/23, *Computational Models in Social Epistemology* at Ruhr-Universität Bochum.
- "How complexly should we model the reasoning of boundedly rational Bayesian agents?", 07/23, *London Reasoning Workshop* at Greenwich University.
- "Anti-reliability in *Laputa: A self-fulfilling prophecy?*", 02/23, *Agent-based models of epistemic communities* at Ruhr-Universität Bochum.
- "Modelling epistemic violence: How testimonial quieting and smothering undermine collective inquiry", 09/22, *SOPhiA* at Paris Lodron Universität Salzburg.
- "Connexive logic: X-Phi results and coherence-based probability semantics" with Dr. Dr. Niki Pfeifer, 08/22, *Reasoning and uncertainty: probabilistic, logical, and psychological perspectives* at Universität Regensburg.
- "Reasoning About Connexive Principles: An Experimental Study" with Dr. Dr. Niki Pfeifer, 07/22, *London Reasoning Workshop* at Birkbeck College.
- "Under which conditions can we trust opaque AI?" with Leon Assaad and Björn Plähn, 10/21, *Bias and Discrimination in Algorithmic Decision Making* at Leibniz Universität Hannover.

- “*Metaethics: Moral fictionalisms*”, 11/19, *Philosophy Club* at University of Colorado.
- “*How to make philosophy discussions fair and engaging*” with Svenja Tikovsky, 01/19, *PhiloLab* at Universität Regensburg.
- “*MacIntyre’s critique of modern moral philosophy*” with Florian Gerum-Winkelmann, 11/18, *PhiloLab* at Universität Regensburg.
- “*Another X-Phi study on moral dilemmas*” with Johannes Gmeiner, 10/17, *PhiloLab* at Universität Regensburg.

Recent Projects

- NormAN: Co-created a new Bayesian agent-based framework ([arXiv-link](#)) for argument exchange across networks, the base model of which is implemented in *NetLogo* and *R* ([Github-link](#)).
- Under review for Heinrich Wansing & Hitoshi Omori’s “Trends in logic”, a joint chapter with Dr. Dr. Niki Pfeifer entitled “Experimental philosophy of connexivity”.
- PTT-Calculator: *R* program to facilitate studies featuring probabilistic truth-table-tasks ([Github-link](#)).
- Agent-based *NetLogo* model aiming to simulate the effects of testimonial quieting and smothering on collective inquiry ([GitHub-link](#)).

Miscellaneous

- Since April 2023: Organizing a bi-weekly reading group about formal social epistemology for PhD students.
- TOEFL score of 117, as of October 2022.
- From 2017 to 2020: Organizing the *PhiloLab*, a recurring discussion format for students, as a member of the philosophy student union at the University of Regensburg.

Other Work-Experience

Software Developer <i>The Roomsolvers</i>	04/18 – 04/20 <i>Regensburg</i>
Gas Station Cashier <i>AGIP</i>	10/16 – 04/18 <i>Obertraubling</i>
Route Setter, Climbing Instructor <i>MEGA Sports</i>	03/15 – 08/18 <i>Obertraubling</i>
